

The Miracle Shed

On a beautiful, sunny September day eight inmates from the Cook County Boot Camp, one drill instructor, a Boot Camp Director and two CPO volunteers delivered a storage shed that was built by the Boot Camp carpentry class, to the home of Tim and Sue Lagestee. There at their home the shed was reassembled under the supervision of Carl and Tom - the CPO volunteers.

Now this may seem like no big deal, an ordinary event. The “big deal”, however, is that these eight Boot Camp inmates were still serving out their sentences, and traveling by van to the suburbs in the custody of one Drill Instructor and two CPO volunteers is unprecedented and unheard of – apart from the blessing and favor of God on this ground breaking program. Not to mention, having a hands-on carpentry class inside the Boot Camp with power saws, hammers, nails, etc. in the first place is equally unlikely apart from the Hand of God orchestrating it all.

Praise Him with us as you enjoy the pictures of the event we have included here!

Built at Cook County Boot Camp, disassembled, & delivered

Tom & Carl supervise the crew reassembling the shed

Although the guys would probably like to stay and visit, after the roof is completed, it's back to Boot Camp

One shed delivered and reassembled. Dan, Frank, Tim & Sue are able to enjoy the accomplishments and the blessings of the day.
